

Dear guests,

Let us comment on the current situation regarding coronavirus and its precautions.

The World Health Organization has not indicated the need to introduce a travel ban and therefore there are no contraindications for healthy people.

We ask all our guests to be considerate to each other and their surroundings and to follow the basic hygiene measures to protect against coronavirus:

- **Frequently wash your hands thoroughly with soap and water**
  - **Cover your mouth and nose if you cough or sneeze**
  - **Keep a distance of 1 m from people who sneeze or cough**
- **If you are returning from an area where coronavirus is present and have symptoms of the disease, or have come into contact with an infected person, report this to the Sanitary and Epidemiological Station or report it to the monitoring and infection department.**

Thank you for your understanding and we wish you a pleasant stay
